APEXARMOR®

The Ultimate Lifetime Warranty Spray-On Roof System DESIGNED FOR RVs, TRAILERS AND THE SPECIALTY VEHICLE MARKET.

Built for the Road. Engineered for the Future. ApexArmor is the ultimate multi-purpose spray-on roofing system for RVs, Trailers, and The Specialty Vehicle Market. Offering unmatched protection, zero maintenance, and industry-leading heat rejection. Forget rubber membranes, caulking, or costly repairs. With ApexArmor, you get a seamless, permanent roofing solution engineered to handle anything.

Repair Process Overview Initial Contact & Repair Assessment Customer contacts the repair facility; repair needs are discussed and established. 5–10 MIN 5 MIN Onsite Inspection (if needed) A free onsite inspection is completed at your location. Note: For minor damages, photos or videos can be submitted instead for an initial estimate. 15 MIN Insurance Claim Setup (if applicable) 1 BUSINESS DAY Service Queue Placement Once funds are secured, the unit is placed in the service queue. 1 DAY – 1 WEEK Customization & Final Details Discussion Customer and repair facility review any customizations, specific requests, or upgrade options. Service Check-In Upon arrival, the unit is checked in, and all special requests are reviewed by the service team. 5 MIN 15 MIN 1 DAY 1 BUSINESS DAY 2-3 BUSINESS DAYS Quality Control & Water Testing Final quality checks are performed, including a water test, to ensure all work meets the highest standards. 1 DAY Estimate Preparation & Approval If repairs require an insurance claim, an inspection date is scheduled A detailed estimate is prepared and submitted for approval by the customer or insurance provider. Repair Date Scheduling The repair date is confirmed and scheduled. Unit Drop-Off or Pick-Up The unit is either delivered to the facility by the customer or picked up by the repair team. Repair & Service Work The unit is moved into the service bay, where repairs and all customers.

Covers What Others Don't Unlike traditional roof systems that skip slide-outs or treat them as afterthoughts, ApexArmor fully protects slide-out roofs with the same seamless, spray-on coverage and thermal protection as the main roof. No more cracked seals, pooling water, or membrane shrinkage. Other Vehicle Types Supported.
